type of security mechanism?

## A brief overview of types of actors and their motives

TOTAL POINTS 25 1. Which hacker organization hacked into the Democratic National Convention and released Hillary Clinton's emails? 1 point Fancy Bears Anonymous O Syrian Electronic Army Guardians of the Peace All of the above 2. What challenges are expected in the future? 1 point Enhanced espionage from more countries Far more advanced malware New consumer technology to exploit All of the above 3. Why are cyber attacks using SWIFT so dangerous? 1 point  $\bigcirc \ \ \mathsf{SWIFT} \ \mathsf{is} \ \mathsf{the} \ \mathsf{flight} \ \mathsf{plan} \ \mathsf{and} \ \mathsf{routing} \ \mathsf{system} \ \mathsf{used} \ \mathsf{by} \ \mathsf{all} \ \mathsf{cooperating} \ \mathsf{nations} \ \mathsf{for} \ \mathsf{international} \ \mathsf{commercial} \ \mathsf{flights}$  SWIFT is the protocol used by all banks to transfer money SWIFT is the protocol used by all US healthcare providers to encrypt medical records  $\bigcirc \ \ \mathsf{SWIFT} \ \mathsf{is} \ \mathsf{the} \ \mathsf{protocol} \ \mathsf{used} \ \mathsf{to} \ \mathsf{transmit} \ \mathsf{all} \ \mathsf{diplomatic} \ \mathsf{telegrams} \ \mathsf{between} \ \mathsf{governments} \ \mathsf{around} \ \mathsf{the} \ \mathsf{world}$ 4. Which statement best describes Authentication? 1 point Prevention of unauthorized use of a resource Assurance that the communicating entity is the one claimed Assurance that a resource can be accessed and used Protection against denial by one of the parties in communication 5. Trusted functionality, security labels, event detection, security audit trails and security recovery are all examples of which

	Contingent security mechanism	
	Active security mechanism	
	Passive security mechanism	
	Tussive security interiums in	
	External security mechanism	
6	. If an organization responds to an intentional threat, that threat is now classified as what?	1 point
	, man of Samzedon response to an international annealy and annealy man and sample and man	1 point
	An open case	
	An attack	
	A malicious threat	
	O An active threat	
7	. An attack that is developed particularly for a specific customer and occurs over a long period of time is a form of what	1 point
	type of attack?	
	Water Hole	
	Spectra	
	Denial of Service (DOS)	
	Advanced Persistent Threat	
8	. Which of three (3) these approaches could be used by hackers as part of a Business Email Compromise attack?	1 point
	Account compromise	
	Request to make a payment	
	✓ Attorney impersonation	
	✓ CEO Fraud, where CEO sends email to an employee	
	CLO Traud, where CLO serius ernair to an employee	
0	Which have a feet and the feet have a feet and the feet a	
9	. Which type of actor was <b>not</b> one of the four types of actors mentioned in the video A brief overview of types of actors and their motives?	1 point
	Black Hats	
	Hackers	
	Hactivists	
	Internal	
	Governments	
1	0. A political motivation is often attributed to which type of actor?	1 point
	Hackers	
	Security Analysts	

Hactivist	
○ Internal	
11. The video Hacking organizations called out several countries with active government sponsored hacking operations in effect. Which one of these was among those named?	1 point
( Israel	
Canada	
○ Egypt	
O South Africa	
0	
12. Which of these is <b>not</b> a known hacking organization?	1 point
The Ponemon Institute	
Fancy Bears	
Syrian Electronic Army	
Anonymous	
Guardians of the Peace	
13. Which type of actor hacked the 2016 US Presidential Elections?	1 point
Government	
Hackers	
○ Internal	
Hactivists	
14. True or False: Passive attacks are easy to detect because the original messages are usually alterned or undelivered.	1 point
False	
○ True	
15. True or False: Authentication, Access Control and Data Confidentiality are all addressed by the ITU X.800 standard.	1 point
	1 point
True	1 point

Learn more about Coursera's Honor Code	
I, Thomas John James, understand that submitting another's work as my own can result in zero credit for this assignment. Repeated violations of the Coursera Honor Code may result in removal from this course or deactivation of my Coursera account.	3 P P
○ True	
False	
25. True or False: An individual hacks into a military computer and uses it to launch an attack on a target he personally dislikes. This is considered an act of cyberwarfare.	1 point
A Worm attack	
A Denial of Service attack	
A Trojan Horse	
A Social Engineering attack	
24. A person calls you at work and tells you he is a lawyer for your company and that you need to send him specific confidential company documents right away, or else! Assuming the caller is not really a lawyer for your company but a bad actor, what kind of attack is this?	1 point
O Maisonware dadak	
A Ransomware attack	
A Masquerade attack	
A Trojan Horse	
23. A flood of maliciously generated packets swamp a receiver's network interface preventing it from responding to legitimate traffic. This is characteristic of which form of attack? A Denial of Service (DOS) attack	e 1 point
O ANOLAIS SERVE	
All of the above	
○ Trojan Horse ○ Ransomware	
Packet Sniffing     Host Insertion	
22. Which type of attack can be addressed using a switched Ethernet gateway and software on every host on your network that makes sure their NICs is not running in promiscuous mode.	1 point
Administrative controls	
Active controls	
Passive controls	
Technical controls	
21. Policies and training can be classified as which form of threat control?	1 point
All of the above	
As a Malware launchpad  All of the above	
Phishing attacks  Distribution of Spyware	
DDoS attacks  Dhishing attacks	
Distribution of Spam	
20. Botnets can be used to orchestrate which form of attack?	1 point
Ransomware	
( ) Worm
